Fall 2025

Welcome!

Thank you for considering Patient Not Found, a Patient Information Summarizer and Redactor program.

1. Getting Started

Before you can create summaries, you must create an account. First, head to the landing page. Since you may not have created an account yet, press the “[Create Account](#)” button.

Fill out the required fields in the [Account Creation](#) page. Fields include Username (must be unique), First Name, Last Name, Email, and Password. Before clicking “[Create Account](#)”, please select a role. **Note:** You must have a valid email address.

The image shows the "Create Account" form in the Patient Not Found application. The form is titled "Create Account" and includes a link for "Already Registered? Login". The form fields are: USERNAME (cherry17487), FIRST NAME (Lydia), LAST NAME (Fitzgerald), EMAIL (plzza1999@gmail.com), PASSWORD (*****), and ROLE (Administrator). There is a "Create Account" button at the bottom.

Once you have created an account, you will be redirected to the **Login** page. Enter your username and password, and press the “Log In” button.

2. Navigation Bar

Have you just created an account? Splendid. Now it's time to get familiarized with the User Interface. Don't worry, it is simple enough for anyone to remember.

On the top left is the **Home Button**. When you leave the **Home Menu**, this is your way back to it.

To access the **Account Settings** Menu, click on the **Gear** icon.

If you get stuck on something, don't fret. The **Help Page** is there to get you out of a pickle.

Simply click the Question Mark to access the help page.

If you want to log out of the application, click “Logout”, underlined in black.

On the far right is the **Role Indicator**, which displays your full name and role. The color of the role indicator changes depending on your role.

3. Home Menu

Depending on your role, you may see two or three big buttons on the **Home Menu**. For standard Users, you have two buttons: “[Create New Summary](#)”, and “[Go to Account Settings](#)”.

Account Settings works the same way as the **Account Settings** button on the Navigation Bar. The Create New Summary button redirects you to the summary creation page.

4. Administrator Role

As an Administrator, you will see an extra button on the **Home Menu**. The **[Admin Dashboard](#)** allows you to see who logged into the program.

5. Account Settings

Made a mistake while creating your account? The **Account Settings** page makes editing your user profile a breeze. Simply click on the credential you need to change, and enter a new value in the field. If you want to save your changes, click “[Save and Exit](#)” to save your new credentials. Please note that changing your username and/or password will require you to use those credentials next time you log in.

If you do not want to save any changes you’ve made to your account, click “[Quit Without Saving](#).”

6. Summary Creation

Now that you've mastered navigating the User Interface, you are now ready to create summaries.

A. On the homepage, click the "Create New Summary" button.

B. You will be redirected to the Summary Generator page.

Patient Not Found

Summary Generator

Generate up to three summaries at the same time!

Summary #1 Summary #2 Summary #3

Generate Summary #1

For text input, simply paste or type text into the box below.

For file upload, please toggle the switch until the switch turns green.
Once the switch turns green, please upload one or more files using the "File Upload" button.

☐

Paste Text Here

Paste or type patient information here...

Redact & Summarize

- C. To switch tabs, simply click on the tab you want to navigate to. The current tab that you are on will be underlined.

- D. In order to generate a summary, you must upload a file or paste/type in text into the text box. Steps 4 and onward will be the same for each tab.

- E. To upload a file, click the slider until you see green.

To paste in text, the slider has to be switched back to the gray position.

For file upload, please toggle the switch until the switch turns green.
Once the switch turns green, please upload one or more files using the "File Upload" button.

- F. Once you are happy with the contents in the text box, click the “Redact & Summarize” button.

- G. Please wait patiently for your summary to be generated. This will take up to 10 seconds for the summary to generate, but actual wait times may vary. A spinning circle will appear on the screen for a few seconds, and disappear when the summary is done loading. Once the summary is finished generating, it will appear in the lower text box.

Summary Output and Text Editor

Note ID: 785baee0-d41f-434e-a490-f6683d4c8f00

Summary: "[REDACTED FULL NAME], 23F, presents with trouble sleeping, irritability, tiredness, and lack of focus. Vital signs are stable with BP [REDACTED ID] and O2 saturation at 97% on room air. Lung examination reveals no rales, and heart rhythm is regular without murmurs. Assessment indicates likely insomnia. Plan includes the use of melatonin."

Allergies: No Allergies

- I. Carefully read the summary and ensure that there are no errors or missing information. If you are not satisfied with the generated summary, simply edit the summary in the output box.

7. Summary Editor

If you are not satisfied with the summary generated by the **Summary Generator**, the built-in **Summary Editor** allows you to edit the summary within your browser.

- A. If you want to undo all of the changes to your summary and want to start fresh, click the "Undo Changes" button to revert the summary back to how it was when it was initially generated.

Undo Changes

- B. Once you are satisfied with your summary, click either (or both) of the "Download Summary" buttons to save your summary as a PDF, DOC, or both file types.

Download Summary (.doc)

Download Summary (.pdf)
