Fall 2025

Prologue - Accessing the Demo

1. Prior to testing the demo, you must type or copy this link into your browser:
<https://four04pnf-x47x.onrender.com/welcome>
2. You are now at the welcome page. Feel free to read the welcome message prior to continuing.

3. Once you are done reading the message, click the “Let’s Go!” button to continue.
4. You will now be redirected to the Home Menu.

Prologue - What Files Should (or Shouldn’t) You Upload?

Patient Not Found supports these file formats for upload:

- .PDF
- .TXT
- .DOC
- Text typed directly into the input text boxes

Patient Not Found supports these file formats for download:

- .PDF
- .DOC

Patient Not Found DOES NOT support any other file formats. These include, but are not limited to:

- .DOCX (Microsoft Word Files, Post-Word 2003)

- .ODT (OpenOffice Word Editor File)

Or sound/video files, such as:

- .MP3
- .MP4
- .MOV
- .WAV
- .OGG

We're sorry, Patient Not Found does not summarize music, dream journal entries, or anything other than doctor notes. Go to ChatGPT or Google Gemini for those use cases.

Prologue - Other Information

Summary Time

- Depending on how many notes you feed into the AI, expect the summary to appear within 10 seconds. This may be impacted by other things such as:
 - Traffic going to OpenAI (The AI API we are using for the project)
 - The internet speed of the local network you are connected to

HIPAA

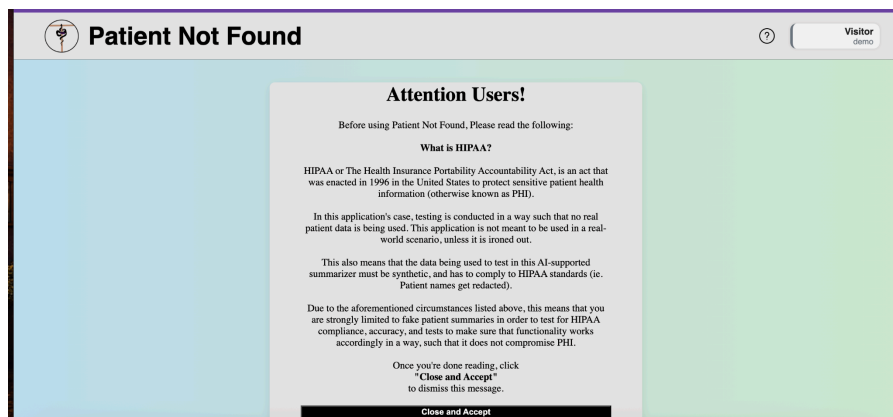

In case you are reluctant to read the HIPAA warning on the homepage, this is the “Short and Sweet” version. HIPAA protects confidential patient info such as:

- Your full legal name (Or any part of it)
- Your date of birth
- Where you live
- Your Social Security Number

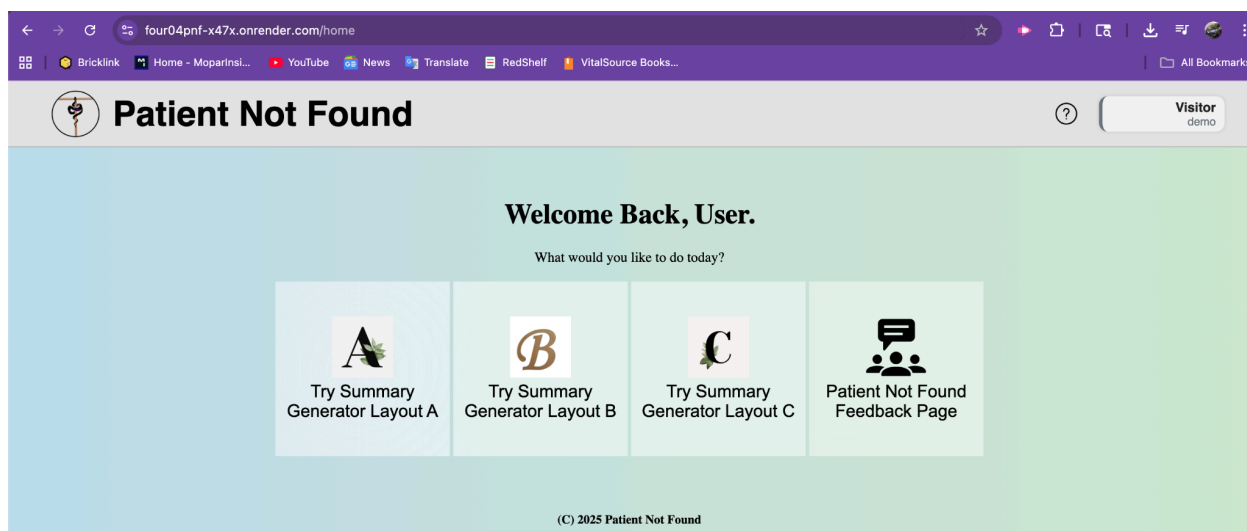

In order for the project to be HIPAA compliant, the notes must be fake doctor's notes with forged information that cannot be traced to any living or deceased individual. Real doctor's notes cannot be used. This is to prevent the AI from saving any information during the summarization stage.

A. Home Menu

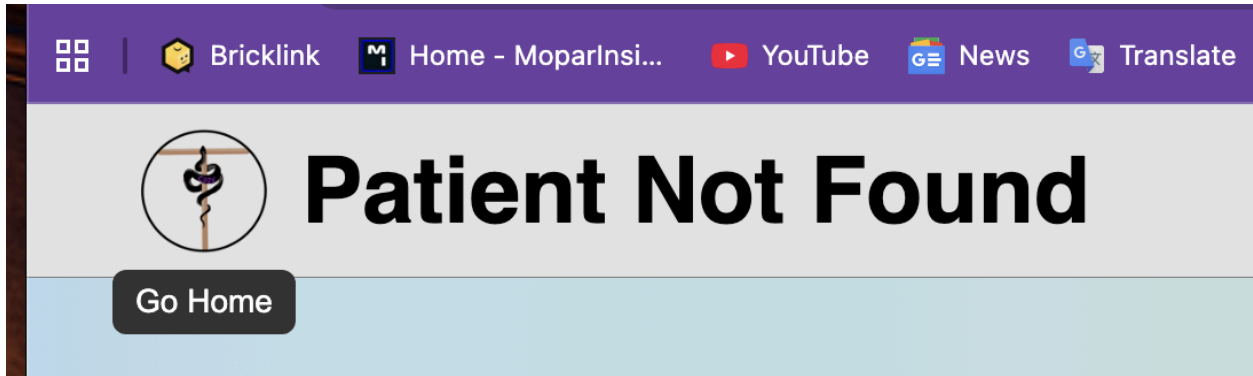

1. You are now at the Home Menu. Please read the disclaimer prior to continuing. Click the “Accept and Continue” button once you have fully read and understood the message. The disclaimer will close, allowing you to explore the Home Menu.

- There are three layouts: Layouts A and B are fully functional. Layout C is solely a visual prototype. There is also a feedback page that you can access after viewing all of the layouts.

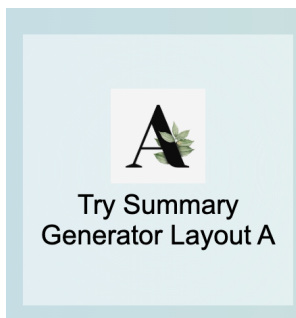

- Feel free to click any of the layouts in any order you so choose.
If you want to go back to the Home Menu, click the Patient Not Found logo at the top left of your screen.
Hovering over the logo will have the words "Go Home" appear. Once it appears, click the button, and you will be redirected back to the homepage.

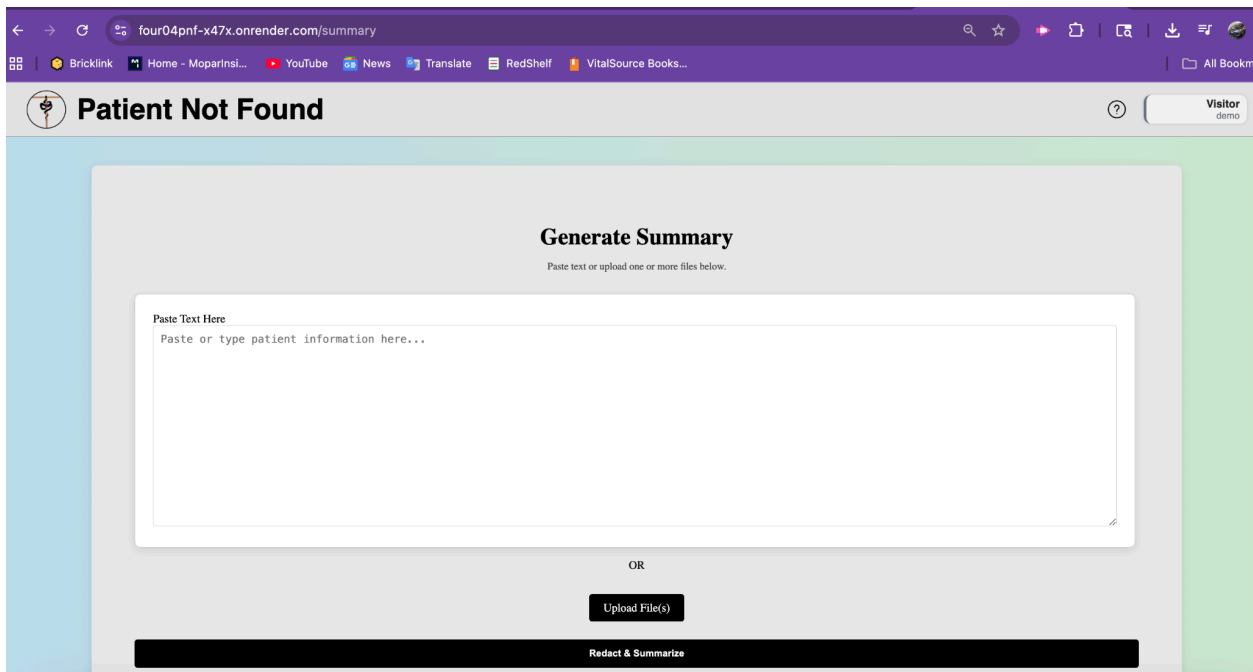

B. Summary Generator Layout A

1. On the homepage, click the “Try Summary Generator Layout A” button.

2. You will be redirected to the Summary Generator Layout A page.

3. To generate a summary, type your summary into the text box pictured above, or upload files using the “Upload Files” button.

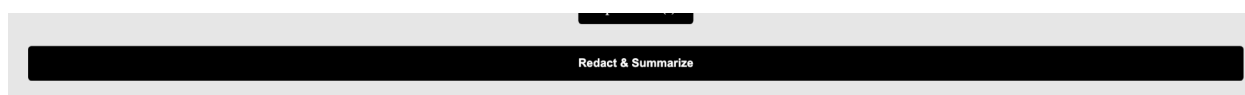

Warning: Do not upload files AND type/paste text into the text box at the same time. The contents of the uploaded file will be the only one being summarized.

Also note that editing an uploaded file prior to summarizing it will not work.

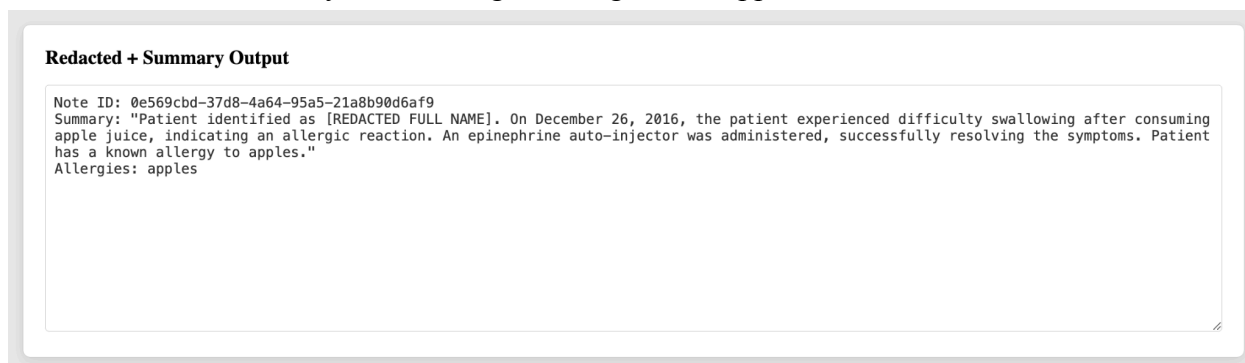

(ie. Changing the patient’s age from 9 to 26. The resulting summary will have the patient’s age listed as 9 years old instead of 26 years old)

If you need to make adjustments to the file prior to summarization, either edit the file in a text editor. An alternative option is to simply copy all of the file’s contents into the text box and edit from there.

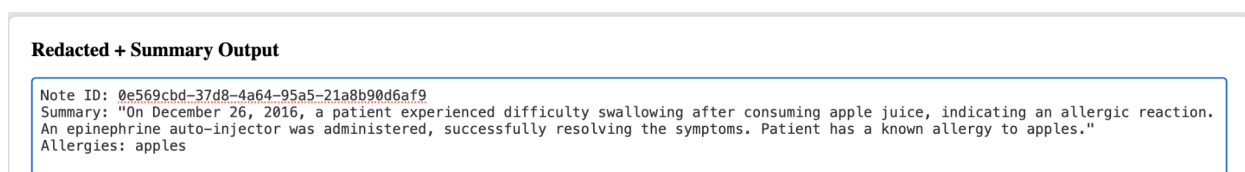

4. Once you are happy with the contents in the text box, click the “Redact & Summarize” button.

5. Please wait patiently for your summary to be generated. This will take up to 10 seconds for the summary to generate, but actual wait times may vary. A spinning circle will appear on the screen for a few seconds, and disappear when the summary is done loading. Once the summary is finished generating, it will appear in the lower text box.

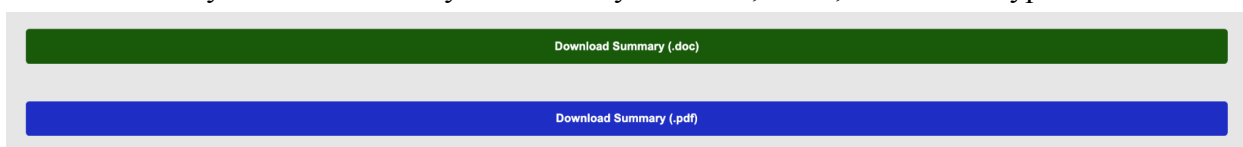

6. Carefully read the summary and ensure that there are no errors or missing information. If you are not satisfied with the generated summary, simply edit the summary in the output box.

7. If you want to undo all of the changes to your summary and want to start fresh, click the “Undo Changes” button to revert the summary back to how it was when it was initially generated.

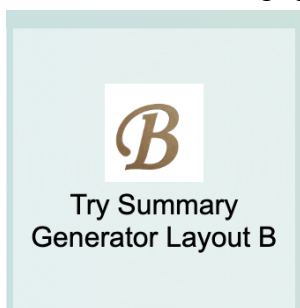

8. Once you are satisfied with your summary, click either (or both) of the “Download Summary” buttons to save your summary as a PDF, DOC, or both file types.

9. If you want to create more summaries, simply reload the page and repeat steps 3 to 8. If not, simply go back to the homepage by clicking the Patient Not Found icon or close the browser tab.

C. Summary Generator Layout B

1. On the homepage, click the “Try Summary Generator Layout B” button.

2. You will be redirected to the Summary Generator Layout B page. This layout is similar to Generator A, but has tabs that allow you to generate 3 summaries simultaneously.

Patient Not Found

Summary Generator
Generate up to three summaries at the same time!

Summary #1

Generate Summary #1

For text input, simply paste or type text into the box below.

For file upload, please toggle the switch until the switch turns green.
Once the switch turns green, please upload one or more files using the "File Upload" button.

☐

Paste Text Here
Paste or type patient information here...

Redact & Summarize

3. To switch tabs, simply click on the tab you want to navigate to. The current tab that you are on will be underlined.

Summary #1

Summary #2

Summary #3

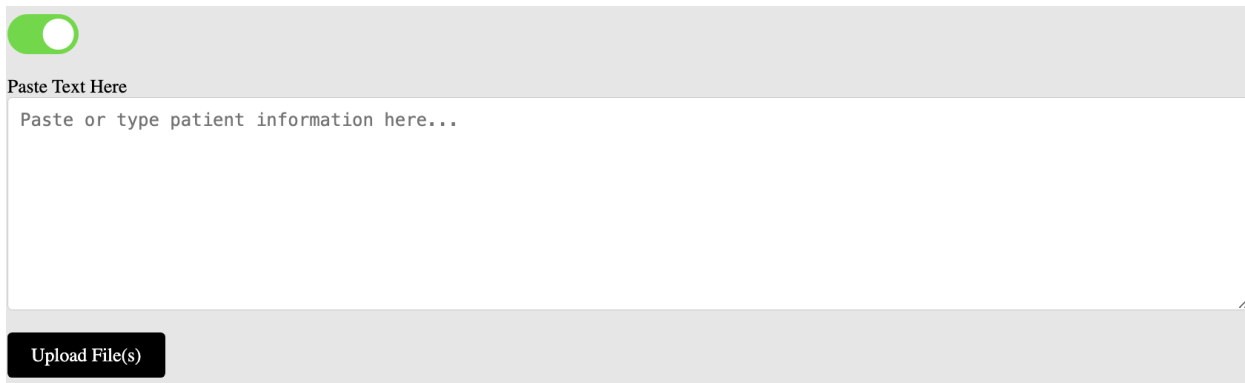

Generate Summary #2

For text input, simply paste or type text into the box below.

For file upload, please toggle the switch until the switch turns green.
Once the switch turns green, please upload one or more files using the "File Upload" button.

☐

4. In order to generate a summary, you must upload a file or paste/type in text into the text box. Steps 4 and onward will be the same for each tab.
5. To upload a file, click the slider until you see green.

Paste Text Here

Paste or type patient information here...

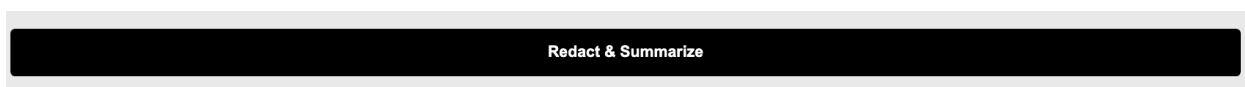

Upload File(s)

To paste in text, the slider has to be switched back to the gray position.

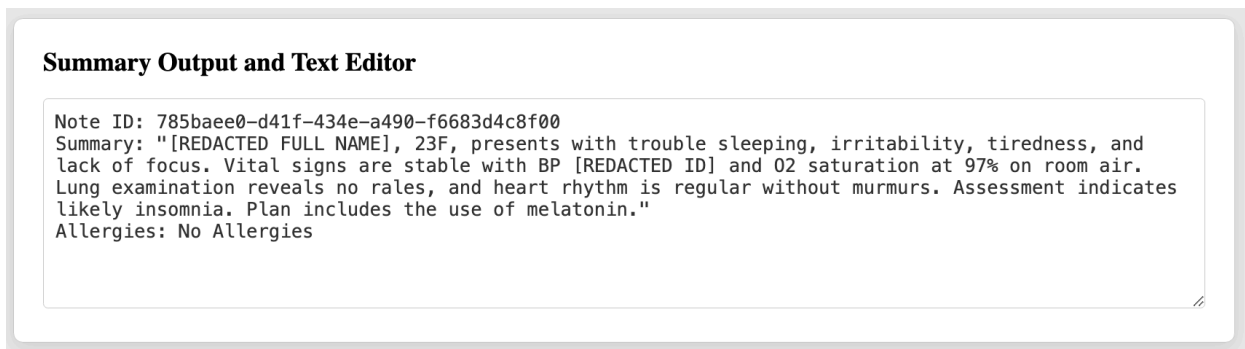

For file upload, please toggle the switch until the switch turns green.
Once the switch turns green, please upload one or more files using the "File Upload" button.

6. Once you are happy with the contents in the text box, click the "Redact & Summarize" button.

7. Please wait patiently for your summary to be generated. This will take up to 10 seconds for the summary to generate, but actual wait times may vary. A spinning circle will appear on the screen for a few seconds, and disappear when the summary is done loading. Once the summary is finished generating, it will appear in the lower text box.

Summary Output and Text Editor

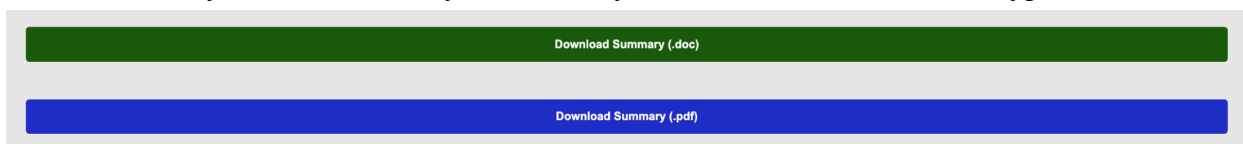

Note ID: 785baee0-d41f-434e-a490-f6683d4c8f00
Summary: "[REDACTED FULL NAME], 23F, presents with trouble sleeping, irritability, tiredness, and lack of focus. Vital signs are stable with BP [REDACTED ID] and O2 saturation at 97% on room air. Lung examination reveals no rales, and heart rhythm is regular without murmurs. Assessment indicates likely insomnia. Plan includes the use of melatonin."
Allergies: No Allergies

8. Carefully read the summary and ensure that there are no errors or missing information. If you are not satisfied with the generated summary, simply edit the summary in the output box.

9. If you want to undo all of the changes to your summary and want to start fresh, click the “Undo Changes” button to revert the summary back to how it was when it was initially generated.

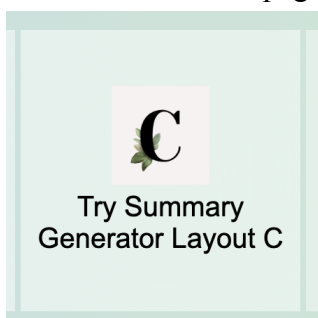

10. Once you are satisfied with your summary, click either (or both) of the “Download Summary” buttons to save your summary as a PDF, DOC, or both file types.

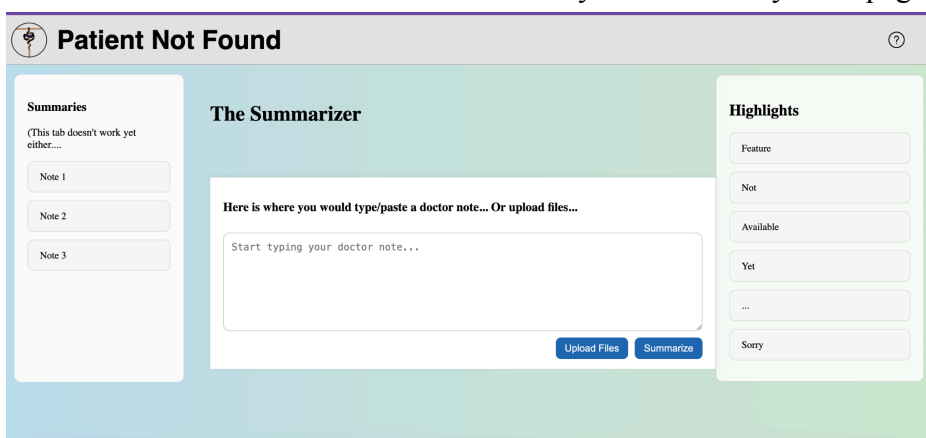

11. If you want to create more summaries, simply reload the page and repeat steps 3 to 8. If not, simply go back to the homepage by clicking the Patient Not Found icon or close the browser tab.

D. Summary Generator Layout C

1. On the homepage, click the “Try Summary Generator Layout C” button.

2. You will be redirected to the Summary Generator Layout C page.

- Since this layout is only a mockup, only file upload allows you to create summaries. Simply click the “Upload Files” button.

Here is where you would type/paste a doctor note... Or upload files...

speech, slowed breathing, sore throat, loss of coordination, and drowsiness.
 PMH: None
 Medications: Children's Tylenol, Cough Syrup
 Allergies: None
 Exam: Vitals stable, BP 128/82, Lungs: Breathing normally, no rales. Heart: regular rhythm, no murmurs.
 Assessment: Fever
 Plan: Give Acetaminophen to reduce pain caused by sore throat, Fever Medicine

- Please wait patiently for your summary to be generated. This will take up to 10 seconds for the summary to generate, but actual wait times may vary. A “Processing Notes” dialogue will appear on the screen for a few seconds, and disappear when the summary is done loading.

Once the summary is finished generating, it will appear in a bubble above the input field. The original file name will be in bold.

Summaries

(This tab doesn't work yet either....)

Note 1

Note 2

Note 3

The Summarizer

nightingale.txt

[REDACTED FULL NAME], 21M presents with difficulty concentrating, irritability, trouble sleeping, and constant fidgeting. Vitals are stable with no respiratory issues noted. Assessment indicates likely anxiety. Plan includes consultation with guidance counselors, social workers, and/or therapists.

Here is where you would type/paste a doctor note... Or upload files...

nightingale.txt
 Sample Doctor's Note (input)
 Patient: John Nightingale, 21 y/o male
 Visit Date: December 26, 2025
 CC: Patient presents with difficulty concentrating, irritability, trouble sleeping, and constant fidgeting.
 PMH: None
 Medications: None

- To export your summary, simply copy the summary from the text bubble and paste it into any word editor you choose. Then follow the instructions for that word editor to download it to your computer.

bucci.txt

[REDACTED FULL NAME], 23F, presents with trouble sleeping, irritability, tiredness, and lack of focus. Vital signs are stable with BP [REDACTED ID] and O2 saturation at 97% on room air. Lung examination reveals no rales, and heart rhythm is regular without murmurs. Assessment indicates likely insomnia. Plan includes the use of melatonin.

E. Give Feedback

1. On the homepage, click the “Patient Not Found Feedback Page” button.

2. You will be redirected to the Feedback Page.

Patient Not Found

Feedback Page

Feedback - Patient Not Found

Hi there! This is the official feedback page for our project. Please provide your thoughts and opinions below!

@gmail.com [Switch account](#)

Not shared

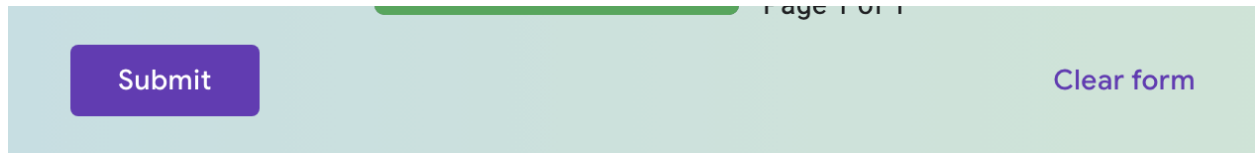

* Indicates required question

1. What is your name?

Your answer

2. What is your role? *

3. Please answer Questions 1-10 and click “Submit” once you are done answering them.

The image shows a feedback form interface. It features a light blue background. On the left, there is a purple button with the text "Submit" in white. On the right, there is a link that says "Clear form" in purple text. Above the "Submit" button, there is a green progress bar that is partially filled. The text "Page 1 of 1" is visible in the top right corner of the form area.

The Feedback Form is limited to 1 feedback response per user, so you will have the option to edit your answers in the off chance you had a change of heart.
